Ragheda Abo Zedan

Software Engineer | Flutter Developer | Mobile Applications
Damascus, Syria | 0930485673 | raghdazedan83@gmail.com | GitHub | LinkedIn | Portfolio

SUMMARY

Software Engineer and Flutter Developer with hands-on experience building cross-platform mobile applications for Android and iOS. Experienced in clean architecture, state management (GetX, Bloc), REST API integration, and third-party services such as Firebase, Google Maps, and Stripe. Worked on real-time features including WebSockets and push notifications. Also comfortable with manual and functional testing, which I apply to my own projects to deliver stable, reliable apps.

SKILLS

- **Mobile Development:** Flutter, Dart, Android / iOS, Responsive UI, Flutter Web
- **Architecture & State Management:** Clean Architecture, MVC, SOLID Principles, Design Patterns (OOP), GetX, Bloc, Equatable, Dartz
- **APIs & Integration:** RESTful APIs, Dio, JSON, JWT, Firebase/FCM, Geolocator, WebSockets, Postman, Stripe, QR Code Scanner
- **Local Storage:** Hive, Secure Storage, SharedPreferences
- **QA & Testing:** Manual & Functional Testing, Integration Testing, Edge Case Analysis, Bug Tracking, UI/UX Verification, API Testing
- **Tools:** Git, GitHub, Postman, Adobe Photoshop
- **Web Basics:** HTML, CSS, JavaScript

EXPERIENCE

Darmesk Company — Flutter Developer Intern Damascus, Syria (05/2024 - 10/2024)

- Contributed to the development of cross-platform mobile applications using Flutter and GetX, including integrating RESTful APIs and handling data between the app and backend services.
- Performed manual testing and bug tracking, and verified UI against designs.

PROJECTS

Musafer - Bus Transport System

- Built a multi-tenant intercity transport app using Flutter, GetX, and Laravel, with live tracking (**Map & Geolocator**), seat locking, **Stripe** payments, **FCM** notifications, and **QR Code** ticket scanning.
- Tested the main booking flows and edge cases before release.

Online Complaint Management System

- Developed a clean-architecture app for citizen-to-authority communication using Flutter and GetX.
- Implemented real-time complaint status tracking with FCM push notifications, and tested the main flows to ensure reliability.

Architecture-Driven Banking Solution

- Engineered a scalable digital banking engine using Flutter, GetX, and **MVC design patterns**, implementing secure transaction processing, observer-based notifications, and tested failure scenarios.

Real Estate & Car Rental System

- Built a multi-role marketplace with advanced search filters and **map** integration, tested API endpoints and role-based permissions.

EDUCATION

Bachelor's Degree in Software Engineering - Damascus University September 2026
Faculty of Information Technology

Focused on Mobile application development, software testing principles, and software engineering methodologies.

CERTIFICATIONS

- **Flutter Development** – Online Course (03/2023 - 06/2023)
- **Graphic Design (Photoshop)** – Modern Center (12/2022 – 01/2023)
- **Web Development (HTML, CSS, JS)** – SBK Center (10/2023 – 12/2023 | 60 Hours)
